

PRESS RELEASE

Today, we are excited to announce a HUGE new chapter for GEM Exhibits!

GEM Exhibits has officially acquired JMW Scotia Woodworking. With this acquisition, we have created an entity that is bigger and stronger, but not faster (we always take our time to ensure quality craftsmanship over speed 😊).

GEM Exhibits has built its reputation as a full-service tradeshow company focusing on offering the highest level of customer service and custom exhibit rentals to our clients. Scotia Woodworking has provided decades of custom exhibit craftsmanship and fabrication expertise to the industry through the BEST craftsmen the industry has to offer – period.

The result? A Full-Service Custom Exhibit House and PREMIER White Label Exhibit Manufacturer focused on Quality and Customer Care.

From concept to creation... from custom woodworking to complete tradeshow environments... we're taking our capabilities to an entirely new level.

We're not just growing.
We're leveling up – exponentially.

This is an exciting new chapter for our team, and most importantly, our partners.

Welcome to the next generation of GEM Exhibits.
